

GRAPHICAL CLEANING CLOTH, THAT'S OUR WORLD

HSR 1700

ALONG WITH A UNIQUE PURCHASE DEAL
FORMULA 1

Since 1992, Dimple has been active in the field of the graphic printing industry. The company's wide experience has led to an ongoing search for innovative solutions in this fast developing market.

The focus of Dimple is to continuously optimize efficiency in every possible way. Therefore Dimple is proud to present the High Speed Roller (HSR) 1700.

HSR 1700

THE FASTEST AND MOST COMPACT FABRIC WINDING MACHINE AVAILABLE ON THE MARKET

The aim was to speed up the production process and increase the efficiency. All expectations were met when the first HSR 1700 became operational in February 2012. High speed says it all, but there is more to this machine. Below is a list of its most competitive advantages.

adjustable knives

precision cut rolls

waste free production

triple capacity

- **HANDLES BOTH DRY ROLLS AND IMPREGNATED ROLLS**
- **I.B.M. TECHNOLOGIES INTEGRATED**
(Impregnation By Measurement)
- **WINDING ONE TO SIX ROLLS AT THE SAME TIME**
- **NO WASTE AND THEREFORE SERIOUS COST REDUCTION**
- **EXTREMELY LOW ENERGY CONSUMPTION**
- **CO² NEUTRAL DUE TO USE OF OUR SOLAR PANELS**
- **ABLE TO HANDLE MATERIALS FOR VARIOUS OTHER BRANCHES TOO**
- **INTEGRATED OPTION FOR INKJET PRINTING ON WASHCLOTH AND PERFORATION UNIT**
- **ABLE TO SATISFY DEMANDS OF CLIENTS FASTER, TAILOR MADE AND WITH INCREASED RELIABILITY**
- **PROVIDES NEW INCENTIVES FOR THE SALES DEPARTMENT**
- **THE HSR 1700 TAKES UP LITTLE SPACE, ONLY 12 M²**
- **PRODUCTION PROGRESS CAN BE MONITORED AT REAL TIME**

SOME MORE INSIDE INFORMATION

(all average figures)

Production	130 rolls per hour
Yearly capacity (8 hours production days - 220 days)	more than 220.000 rolls / dry
Price reduction (in general)	30%

HSR1700 will be guided with a machine manual as well as a production manual. Every print press type and size has its own instruction sheet.

The instruction sheet for the Dry as well as Wet rolls, can be put into the computer screen, for each product you can enter the right data, so no calculation need be made, everything is plug and play. You only put the article number in the computer, and you are up and running.

FORMULA 1 - DIMPLE GETS YOU IN POLE POSITION

dimple

FORMULA 1

E2C Program

THE HIGH SPEED CONCEPT TO PLACE YOUR COMPANY IN POLE POSITION

By continuously optimizing production processes Dimple is known to guarantee lowest prices in the market at all times. Doing business in over 80 countries worldwide we are now looking for production partners, to expand and optimize the distribution network.

WHAT'S IN IT FOR YOU?

- The purchase of the HSR 1700 machine, total costs: 80.000 euro
- 50% of the total cost (40.000 euro) will be funded by Dimple to be settled in 5 years by a material discount
- The other 40.000 euro invested by your company can be refunded in 3 to 5 years through tax advantages, investment allowances and development grants depending on your country's tax legislation.
- You will have a return on investment of 100% (80.000 euro) within 3 to 5 years depending on your transaction volume and your country's tax legislation
- Exclusive production partners for each region/country
- Free use of our marketing materials that can be converted into your own house style
- Access to training, expertise and technical support to implement the HSR 1700

VISIT OUR INSPIRATION CENTRE AND SEE THE PROFESSIONAL HSR 1700 IN PRODUCTION AND THE START-AND-STOP METHOD OF EXCHANGING ROLLS.

RELIABLE PARTNERSHIP TO CREATE NEW BUSINESS OPPORTUNITIES

By distributing the HSR 1700 in various countries all over the world, Dimple seeks to decrease production and transportation costs and increase flexibility and distribution speed to our customers.

This collaboration network enables new cost reducing possibilities and has its stable base in reliable partnership. Dimple will continue to excel in product innovation inspired by sharing expertise and business opportunities.

To illustrate, the HSR 1700 can easily be used to create new business with the following cleaning applications.

Electronic industry (printing boards)

Filtration

General wiping

Automotive industry

Medical industry

Computer/clean room wipes

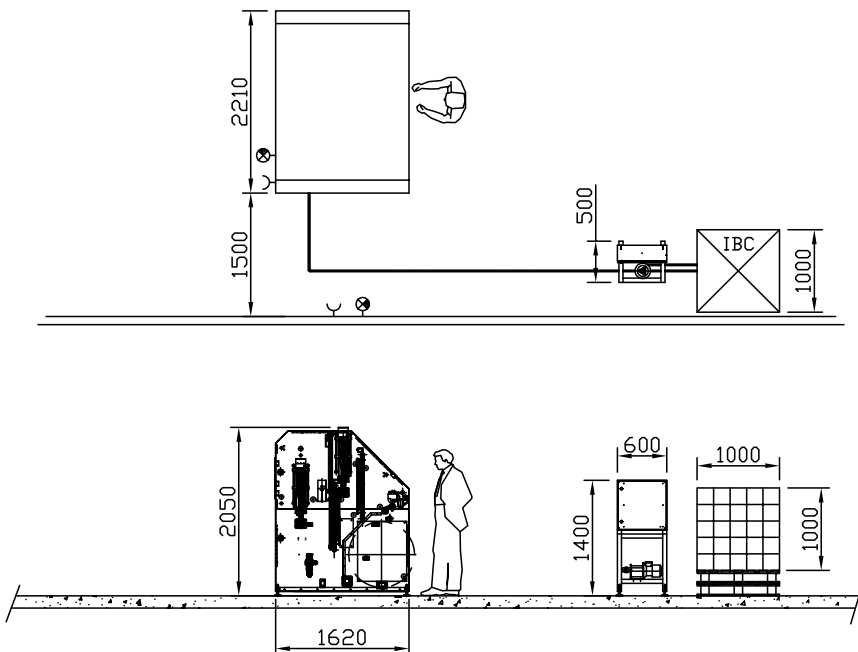

All fabrics for these branches can be supplied by Dimple.

HSR 1700 + FORMULA 1

IF YOU WOULD LIKE TO DISCUSS EXCLUSIVE PARTNERSHIP AND BUSINESS OPPORTUNITIES OF THE HSR 1700, PLEASE CONTACT:
